

PLEXUS MINING

Daniel Bonniot de Ruisselet

UGM / San Diego / 2015

Documents to mine

- **Internal documents**
 - Internal reports (Office, PDF)
 - Document repository (e.g. Documentum)
- **External documents**
 - Research journal articles (PDF)
 - Patents (XML, HTML, PDF)
- **Why mine?**
 - Find relevant documents by chemically intelligent search
 - Extract relevant chemistry from selected documents

Plexus Mining

- Database index of document collection
- Metadata (Title, Author, Date, ...) and Chemistry
- Handles changes intelligently
- Plexus Web interface
 - No software to install for end-users
 - Consistent with other Plexus tools
 - Works standalone too
- Also integrates with existing systems
